- Implemented REST APIs for expense tracking, transaction history, and budget management.
- Integrated MySQL database for storing and managing user financial data efficiently.
- Built responsive dashboards for visualizing income and expense details.

Expense Tracker System | *Java, React, Spring Boot, MySQL*

- Designed and developed an expense tracking platform for managing daily expenses and spending categories.
- Applied Object-Oriented Programming concepts and relational database modeling.
- Integrated CRUD operations and responsive user interface components.
- Improved application performance using optimized SQL queries.

HR Intelligence Platform | *Java, React, Spring Boot, MySQL*

- Developed a recruitment management platform for handling candidate information and interview processes.
- Built backend APIs and integrated database connectivity using Spring Boot and MySQL.
- Created recruiter dashboards for managing candidates and interview workflows.

INTERNSHIP

UiPath RPA Developer Intern

Virtual

Robotic Process Automation Internship

- Developed automation workflows using UiPath Studio to automate repetitive tasks.
- Worked on data extraction, web automation, and exception handling processes.
- Improved workflow efficiency through automation and debugging techniques.
